## **AVT COMMUNICATION SYSTEMS LIMITED**

are specialists in the supply and installation of Assistive Technology for the Hard of Hearing.

In 1980 the founder of the Company recognized a requirement to provide a quality service from initial consultation to final installation and commissioning, and has been working towards that goal ever since. AVT now has a wide range of satisfied clients to their credit encompassing Local Village Halls and Charitable Organisations to Multi Million Pound International Companies and Government Organisations.

Our speciality is helping people to hear and therefore communicate more effectively. Particular areas of excellence include the following:-

*"A Problem is a Solution waiting to be found"*

Interestingly enough, about 2 Million people in the UK own Hearing Aids, and at least another 3 Million people have hearing difficulties in everyday life and are likely to benefit from a hearing aid.

That translates into one person in seven of the population who suffer from hearing loss and may find your building problematic to use, if it is not effectively equipped to communicate with people who are Deaf or Hard of Hearing.

The Disability Discrimination Act 1995 makes it unlawful to discriminate on the grounds of disability when providing services, facilities, goods or employment. As of 1st October 1999 Part 3 of the Act will stipulate that it is the duty of a service provider to make reasonable adjustments. A service provider may have to provide an Auxiliary Aid or Service if it would enable (or make it easier for) disabled people to make use of their goods, facilities or services.

It is also a Requirement under the Building Regulations 1991 to Provide Access and Facilities for Disabled people, particularly "Aids to Communication", and as such Deaf & Hard of Hearing People could be denied access to your building.

# HOW CAN AVT **HELP?**

With our specialist knowledge and many years of experience and understanding we can make simple & cost effective improvements and modifications to your building and increase the number of people who visit your premises.

By providing these facilities, you are not only helping the Deaf & Hard of Hearing Community, but you are realising your obligations under the Disability Discrimination Act, as well as proving your commitment to your patrons

All our solutions offer excellent sound reproduction, are simple to use and provide quality value for money. They will give you the confidence to welcome Deaf and Hearing Impaired People into your organisation.

Furthermore, any increase in sound enhancement quality benefits everyone.
